THE SECURITY OF STEEL

HOPE'S WINDOWS AND THE AMERICAN INSTITUTE OF ARCHITECTS CONTINUING EDUCATION SYSTEMS
AIA/CES REGISTERED PROVIDER PROGRAM

The Security of Steel program was designed to explore the features and benefits of steel as it pertains to the detention window. It will broaden one's understanding of the manufacturing and finishing process of the steel detention window. The presentation will also address the importance of certified testing and performance data.

This is a PowerPoint® based format using physical samples and open discussions to further enhance the learning process. There is no cost to bring this program to your firm or chapter meeting.
